

GEETHU SURESH K

JUNIOR SOFTWARE ENGINEER

+91-9562244351 • Trivandrum • geethusureshk004@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Dynamic and versatile Full Stack Developer specializing in Python backend ecosystems and modern Frontend development. Proven track record of building scalable web applications, designing robust RESTful APIs, and managing diverse database architectures (SQL & NoSQL). Adept at quickly mastering emerging languages and frameworks, with a comprehensive understanding of the full software development lifecycle (SDLC) from concept to deployment.

TECHNICAL SKILLS

- **Programming Languages:** Python | JavaScript | HTML5 | CSS3
- **Frameworks & Libraries:** Django | React.js | Bootstrap | Tailwind CSS | Node.js | NumPy | Pandas | Celery
- **Databases & APIs:** MySQL | REST API | JSON
- **Tools & Version Control:** Git | GitHub | VS Code
- **Other Technical Skills:** Object-Oriented Programming (OOP) | Data Structures & Algorithms | Responsive Web Design
- **Productivity Tools:** MS Word | MS Excel | MS PowerPoint

PROFESSIONAL EXPERIENCE

Loon Technologies, Kozhikode – Frontend Developer Jan 2026 – Present

- Developed and deployed responsive e-commerce web platforms and digital product catalogs using clean, semantic HTML5, CSS3, and layout frameworks.
- Architected highly interactive frontend interfaces for retail and B2B platforms, translating design mockups into pixel-perfect, production-ready code.
- Optimized web performance and asset delivery by utilizing lazy-loading and modern image formats, effectively reducing page latency for mobile users.
- Constructed dynamic, state-persistent components for product galleries and custom brand showcasing to maximize user engagement metrics.
- Applied industry-standard debugging practices to identify and resolve layout inconsistencies, improving cross-device rendering stability.

One Team, Thiruvananthapuram – Full Stack Developer Intern May 2025 – Nov 2025

- Delivered comprehensive training sessions on Python basics, Django, HTML, CSS, and MySQL.
- Guided trainees in building industry-standard web development projects using core technologies.
- Provided mentorship and support to help students apply theoretical concepts to real-world scenarios.
- Regularly updated training materials to align with current industry trends and best practices.

PROJECTS

Frills and Laces – Fronend Developer

- Developed a high-conversion e-commerce storefront and digital clothing boutique layout utilizing clean, semantic structural markup and modular layouts.
- Engineered multi-category product discovery galleries and streamlined navigation architectures to handle highly visual retail catalog data efficiently.
- Implemented dynamic customer request interfaces with client-side form validations to process complex user design choices before pushing data to backend endpoints.

Wood Look Trading Co. – Fronend Developer

- Architected an interactive corporate product catalog and showcase platform to highlight custom structural furniture, doors, and window designs.
- Built light-weight image popup modal components and high-fidelity project galleries using optimized layout frameworks.
- Designed accessible contact forms and interactive call-to-action routing structures to capture incoming B2B client inquiries and drive local business growth.

Okins Lab – Fronend Developer

- Constructed a responsive retail brand portfolio website to cleanly categorize premium commercial pet and automotive care product catalogs.
- Engineered intuitive header navigation flows and distinct, clean product display rows to maximize multi-niche catalog readability.
- Applied search-engine-friendly (SEO) semantic text structures across main content sections to boost brand visibility for regional product searches.

WPC Manufacturers – Fronend Developer

- Created a fast-loading industrial manufacturing directory and B2B web showcase layout to catalog bulk construction products.
- Integrated automated modal view windows for visual product models, simplifying technical design browsing for prospective contractors.
- Optimized core frontend source structures to clean up code footprint, dramatically reducing script latency for industrial business leads.

EDUCATION

BSC MATHEMATICS

Sep2021-Apr2024

VTM NSS College – Dhanuvachapuram

CERTIFICATIONS

Diploma in Computer Application - Kerala State Rutronix
